INNOVATIVE DESIGN • PARTNERS IN EFFICIENCY

GLADIATOR

LARGE GRIP TIRES

The Gladiator has large grip tires to hold the blade from skidding sideways when digging ditches with one corner of the blade.

Shown with optional
MOLDBOARD EXTENSION KIT

DEPTH INDICATOR

Know your cutting or filling depth.

Shown with optional
GPS MOUNT

WHY CHOOSE THE GLADIATOR?

- Heaviest in class
- Extra high volume dirt capacity
- Large grip tires
- Moldboard extension kit
- Strongest frame design

TILT

The Gladiator can be tilted to dig 24" with one corner allowing for great contours.

DESIGN

The unique blade design creates added strength and longevity. The Gladiator boasts the deepest box section in the industry protecting your investment.

CAPACITY

The Gladiator series of blades can move more dirt than competitive units due to its unique blade shape. It can move 10% more dirt than most competitive blades the same width.

LARGE INDICATORS

Each machine comes with easy to see tilt, horizon and depth indicators.

HEAVY WEIGHT

The Gladiator is one of the heaviest lbs/ft in the industry. This ensures cutting in hard soils when others skid over the top.
