PHIBER

Brilliantly Fast

The design of the DASH has two primary objectives:

1. Keep the sprayer spraying by reducing fill times
2. Keep chemicals safely separated during sprayer loading

All inductors come with flip-up lids, and can be fitted with an optional jug knife.

Every inductor automatically rinses itself with every unload.

The Unique linkage shuts the rinse off before the main valve it closes, allowing for complete cleanout of each inductor.

The pull handles, located on the side of the DASH unit allow for the sprayer to be loaded completely from a single ground level station.

The Air-Powered Diaphragm Pump is the heart of the rinse and agitate system. This pump is used for rinsing jugs, inductors and getting dry chemicals into suspension. It also controls the hand sprayer, & wash down for a complete and easy cleanout .

DASH Concept

open camera-hover-open

All DASH units include a QR Code that, when scanned, will take you to **PhiBer University**; watch videos on instaliation, training & best practices.

Choose a source for the rinse pump from either fresh water or draw from the very left inductor.

Inductor rinse system automatically turns on when chemical is being unloaded, washing and draining the inductor.

To rinse jugs, push to activate.

All inductors have anti-vortex plates which increase unloading speeds. It also reduces the amount of air being drawn into the water stream, minimizing foaming.

Each DASH comes standard with a water agitate in one inductor. An optional dry mix agitator (blender) is available to get heavier dry products into suspension.

DASH 2.2

DASH 2.2 has all the same features as its big brother, just in a smaller package.

Preload, Auto Rinse, Agitate Dry Products and Easy Cleanout are at the core of its design.

150 Gallons (570 ltr) of Storage:

75 gal (285 ltr) Inductor x2

INNOVATIVE DESIGN • PARTNERS IN EFFICIENCY

DASH 4.0 Rear

Designed to mount on the back of a tanker, flat deck trailer or grain box,

the DASH 4.0 Rear Mount has all the same features of the center mount DASH but with a different frame to support a different mounting. This model includes tail/turn lights, flip down work platform and a license plate holder.

Rear mount includes tail lights and flip down deck.

DASH 4.2

***DASH 4.2 is designed to maximize efficiency,
increase chemical efficacy***

Four 75 gal (285 ltr) inductors for 300 gal (1,140 ltr) of total chemical storage give lots of capacity for large mixes.

Easy to read indicators.

Comes standard with a 13HP Honda, electric start motor and 3" Hypro pump.

Easy to pull handles allow the operator to stand in one spot and unload inductors.

Up to two optional chemical transfer pumps are available.

Trailer Packages

Pintle Trailer

- Air Ride Suspension & Braking
- 3,250 gal Water Capacity
- 4 Tote Capacity
- Two DASH Options
- DASH 2.2 or 4.2 Available

28' Gooseneck

- Spring Ride Suspension
- 3,250 gal Water Capacity
- 4 Tote Capacity
- DASH 2.2 or 4.2 Available

45 ft Tandem

- Air Ride Suspension
- 6,500 gal Water Capacity
- 8 Tote or Pallet Carrying Capacity
- DASH 4.2 Standard

Sprayer Trailer

- Air Ride Suspension
- Multiple Water Capacity Options Up To 3,750 gal
- 4 Tote or Pallet Carrying Capacity
- DASH 4.2 Standard

45ft. Tri-Axle

- Air Ride Suspension
- Multiple Water Capacity Options Up To 8,000 gal
- 8 Tote or Pallet Carrying Capacity
- DASH 4.2 Standard

50ft. Tri-Axle

- Air Ride Suspension
- Multiple Water Capacity Options Up To 8,000 gal
- 12 Tote or Pallet Carrying Capacity
- DASH 4.2 Standard
