

chemicals into suspension. It also controls the hand sprayer, & wash down for a complete and easy cleanout.

All Dash units include a QR Code that, when scanned, will take you to **PhiBer University**; watch videos on instaliation, training & best practices.

> All inductors have anti-vortex plates which increase unloading speeds. It also reduces the amount of air being drawn into the water stream, minimizing foaming.

open camera-hover-open

Choose a source for the rinse pump from either fresh water or draw from the very left inductor.

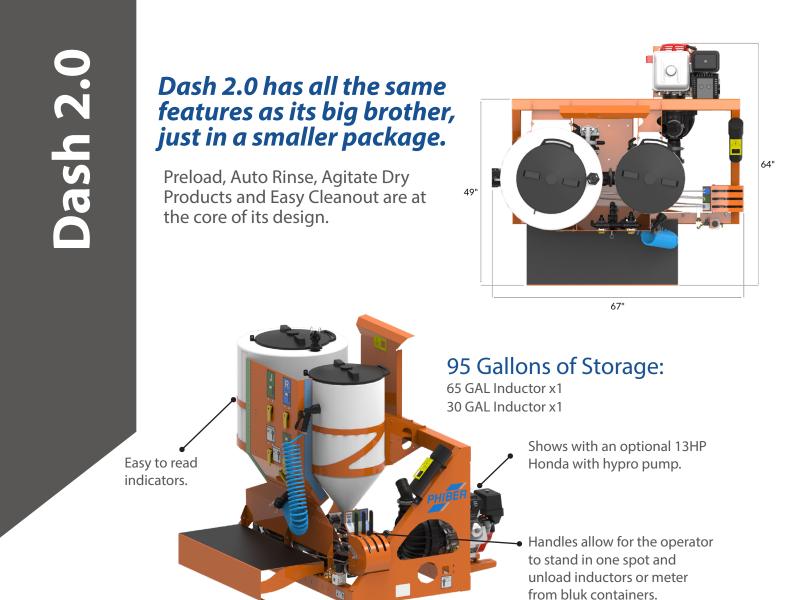

Inductor rinse system automatically turns on when chemical is being unloaded, washing and draining the inductor.

To rinse jugs, • push to activate.

Each Dash comes standard with a water agitate in one inductor. An optional dry mix agitator (blender) is available to get heavier dry products into suspension.

# Dash 4.2 is designed to maximize efficiency, increase chemical efficacy

Four 75 gal (285 ltr) inductors for 300 gal (1,140 ltr) of total chemical storage give lots of capacity for large mixes.

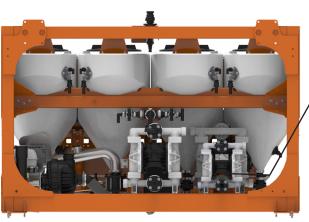

Comes standard with a 13HP Honda, electric start motor and 3" hypro pump.

Easy to ready indicators.

Easy to pull handles allow the operator to stand in one spot and unload inductors.

Up to twooptional chemical transfer pumps are available.
